

London Borough of Bromley & NHS

South East London, Integrated Commissioning Board

Innovation Fund

The Innovation Fund is a funding programme financed by Bromley Council and NHS SE London Integrated Commissioning Board (ICB), with a commitment to support prevention and early intervention projects. Our aim is to ensure residents receive more of the right care, in the right place, at the right time, and remain as independent and for as long as possible.

Innovation can be the practical implementation of new ideas that drive change and result in positive outcomes and performance. Organisations and partnerships will operate an outcomes-based approach, with learning embedded into core delivery.

The Innovation Fund

The aim of the fund is to learn what works and to explore potentially more effective ways of improving access and support. Commissioners are looking for creative ideas and new solutions to improve service delivery, service user outcomes and to address gaps in support for residents. The Innovation Fund is a commitment to transformation, learning and progress and is not a grants programme. The fund is non-recurrent, as the intention is to support organisations to test ideas and concepts, whilst presenting a parallel plan on how funded services will potentially be developed and sustained without LBB funding in the longer term.

In relation to this fund, we are looking for new solutions to inflexible issues through alternative ways of working and or testing solutions to emerging problems by:

- Targeting identified gaps in service delivery
- Community mapping, to identify and improve awareness and use of community resources.
- Exploring approaches that include resident engagement , participation and consultation, using community and or service user's personal resources to improve outcomes and self-management.

Partnerships

The Innovation Fund is a funding programme financed by Bromley Council and the NHS SE London ICB. The fund is administered and managed by Bromley's Integrated Commissioning Service with support from Community Links Bromley.

Community Links Bromley has been commissioned by the Council and ICB to provide a range of services for example:

- To support, enable and champion the Voluntary, Community and Social Enterprise (VCSE) sector in Bromley to provide a sustainable range of services to strengthen the sector and build capacity, focusing the benefits on the residents of the borough.
- To promote community-led support, which embraces innovation and co-production, and assist the sector in developing community-based initiatives in support of the Council's core offer.

Specifically in relation to this fund, Community Links Bromley and Bromley Third Sector Enterprise, support the advertising and marketing of the funding rounds, through their website, newsletters, and social media. Additionally, Community Links Bromley provide their Award Force Platform and support for the online application process, together with the relevant documentation and guidance.

Priorities

The priorities for this fund are aligned to the Bromley Corporate Strategy, and the Adult Care & Health Portfolio Plan:

<https://www.bromley.gov.uk/policies-plans/making-bromley-even-better-corporate-strategy-london-borough-bromley>

<https://www.bromley.gov.uk/downloads/file/573/adult-care-and-health-portfolio-plan>

Whilst the Fund supports the Council's and NHS SE London ICB's overarching aim to prioritise the health, safety and wellbeing of our residents, the COVID-19 pandemic has had an adverse impact and has brought particular challenges to those involved in preventative and early intervention support. Many services have found different ways of engaging with residents, whilst dealing with an increase in demand.

For the foreseeable future we will be seeking bids for the Innovation Fund to focus on any of the following areas which may have been intensified by the pandemic:

- Reducing social isolation and loneliness
- Helping people to improve their health and wellbeing.
- Supporting carers
- Supporting young people (16+) as they transition into adulthood.
- Promoting and supporting volunteering
- Providing day opportunities for vulnerable adults and older people to support the role of carers.

Scope of Fund

Each financial year the Council and the NHS SE London ICB will determine the annual allocation to the fund. Funding rounds will be announced quarterly in advance.

The Innovation Fund is a fund specifically for innovative new ideas to enable organisations to pilot new initiatives. It is NOT a fund to support everyday business as usual such as:

- Ongoing costs or meeting higher levels of demand than anticipated in core service areas.
- Equipment, system, or any other set up / maintenance costs, unless they are an integral part of the innovation project.
- Cover shortfalls in funding from a statutory agency or to pay for deficits elsewhere in the organisation.
- Initiatives that will duplicate current provision (possible exceptions if delivered in a different way or delivering different outcomes)
- Projects that were previously funded, where the specification is 60% the same, even where the project name has been changed.
- Projects that have not demonstrated a clear local need.
- Do not meet the criteria listed on the funding application form.
- Promote political parties (incl. lobbying and campaigning), individuals or religion.

Eligibility

The Innovation Fund is available for relevant applications from all voluntary, community and not for profit organisations. The organisation must:

- Be based or operate in the London Borough of Bromley for the benefit of Bromley residents.
- Support the most vulnerable members of Bromley's communities.
- Ordinarily, organisations may only apply once a year, whether a previous application was successful or not. Priority will be given to applications from those who have not previously received Innovation Fund, funding. But exceptions can be made on a case-by-case basis.
- Funds may be given to facilitate innovation delivered by an associated organisation where it helps to meet the Innovation Fund criteria and identified priorities. They will have an appropriate sub-contracting arrangement in place with the associated organisation. The draft sub-contract agreement will be submitted as part of the application.

There will of course be risks and challenges for innovative pilots and these should be considered for any potential project. Good innovation propositions will have considered:

- The contribution from staff, volunteers and service users to develop and own innovative ideas.
- Resources and capacity, appropriate to innovate effectively.
- Risks, mitigation and exit plans.
- How to embed the learning in future service delivery

We request applicants are registered with Community Links Bromley to benefit from their governance and support arrangements.

Funding period

Funding will normally be provided for projects that run for 1 year, but longer projects may be submitted up to a maximum of 2 years, and such bids will be subject to review at the end of the first year. Details will be provided in each funding round. Projects will be expected to start as soon as possible and will be subject to regular review. Applicants must consider how the project can be sustained at the end of the funding period; seeking in advance alternative funding streams potential with the assistance of Community Links Bromley who are commissioned by LBB to provide infrastructure support services to the voluntary, community and social enterprise.

Amount Available

The available funds will be confirmed at the beginning of a funding round, taking into account the value of any current projects that are due to run into the forthcoming year. Applications of up to £20,000.pa will be accepted.

Applications

All applications must be submitted online via the Community Links Bromley Award Force Platform before the closing date for each funding round. Full guidance is provided and support on the use of the platform will be available. As a minimum applicants must include:

- A description of the service and how it will deliver the themes outlined in the priorities highlighted in each funding round.
- How it will improve service delivery
- How it will add social value
- How it will incorporate service user feedback, professional experience
- Effectiveness using an appropriate framework with qualitative and quantitative measures for project progress , outcomes and learning from the project.
- How the project can be sustained if outcomes are successful at the end of the funding period
- Confirmation that the organisation is adhering to and meeting any legal duties relating to Equalities, Disclosure and Barring Schemes, Safeguarding and GDPR as a minimum and provide evidence when requested.
- Confirmation that information may be shared for the detection of fraud.

Application Timeline

The provisional annual funding rounds will open as follows:

March, June, September, December

The detailed timetable for each each funding round will be announced prior to the opening of the round.

Example timeline

Funding round opens	Start of month
Questions, clarifications from prospective applicants	Whilst the funding round is open
Funding round closes	Approximately 3 weeks from date of opening
Application review by panel members	1 week
Application conversations, agreed / decline senior manager sign off	1 week
Application outcome communication	1 week from final panel review

Application review and communication

Applications will be assessed by the Innovation Fund panel, who may consult with appropriate Bromley Council / ICB officers on the applications and may request supplementary information from the applicants.

The Panel will consist of:

- Lead commissioner - Bromley Council
- Commissioner - NHS SE London ICB
- Representative - Community Links Bromley

If the total value of all eligible bids exceeds the available funds, the panel will select those bids which it deems will best meet the fund's priorities. Applicants may be offered a proportion of the amount requested. Award decisions will be made by Bromley Council and NHS S E London ICB, Heads of Service for commissioning. Their decision is final and there is no appeals process.

We aim to ensure that organisations will be notified of their application within one week of the final decision. A list of successful schemes will be available on the Community Links Bromley website.

We request all applicants to register with and include their details on the Simply Connect Bromley website and this will be a requirement for all successful organisations.

https://bromley.simplyconnect.uk/activities?post_code=Bromley&distance=50&type_id=1&type_id=2&page=2&limit=20&sort=asc

Finance

- Projects are expected to commence immediately or within 1 month of approval.
- Payment terms will be detailed for each project and funds released in tranches.
- Applications for funding of £10,000 or below may be part paid on agreement of the application.
- Applications for funding above £10,000 will normally be paid quarterly in arrears, with exceptional agreement for part payment on agreement of the Application.
- Full details of all expenditure directly linked to each project must be maintained.

Monitoring and Evaluation

Key performance indicators and outcome data requirements will be agreed at commencement of the project.

Commissioners recognise there is a balance between data collection and monitoring, and therefore a reasoned and pragmatic approach will be taken.

Successful projects will be monitored through reporting, case studies, and the quarterly review meetings held between the Council commissioner and the provider. Discussions will focus on progress against plans, changes planned in light of lessons learnt, final project evaluation, and options to secure future funding to continue successful projects.

Occasionally some projects may not progress as originally planned and it may be necessary to suspend or close a project early and this will be discussed during the quarterly review meetings.

Innovation Fund – Application form (online via CLB Award Force Platform)

Organisations eligible to apply to the Innovation Fund must:

- Be based in or operate in the London Borough of Bromley for the benefit of Bromley residents.
- Support the most vulnerable members of Bromley’s communities.
- Funds may be given to facilitate innovation delivered by an associated organisation where it helps to meet the Innovation Fund criteria and identified priorities. They will have an appropriate sub-contracting arrangement in place with the associated organisation. The draft sub-contract agreement will be submitted as part of the application.
- Ordinarily, organisations may only apply once a year, whether a previous application was successful or not. Priority will be given to applications from those who have not previously received Innovation Fund, funding.
- **This organisation has not submitted an application in the previous financial year ending in March.**

Does your organisation meet the above criteria? YES NO

(If YES proceed with application; if NO, text displayed: Your organisation does not meet the eligibility criteria to apply to this Fund. Please contact either, Alison.Shepherd@bromley.gov.uk or christophere@CommunityLinksBromley.org.uk to discuss your application. Please also see the [Community Links Bromley website](#) for other funding opportunities you can apply to.)
