

Bromley Methodist Church

Guidelines for Using our Carpark

Our carpark is managed by a third-party company using the ANPR system.

Those attending a service or an event at the Church may use the car park if there is space available, and the driver is on the premises.

The use of our premises does not confer a right to use the car park and we cannot guarantee the availability of spaces.

It is the responsibility of those who choose to use the car park and who stay on the premises for more than 20 minutes to ensure that their vehicle is correctly registered.

After entering their details into the tablet, **they should receive an acknowledgement on the screen confirming the registration.**

There are two tablets available on site (near the carpark entrance and the main entrance); if one is not working, users should use the other. If both tablets are out of order, the user should provide their vehicle registration details to the event organiser/leader, who should then pass the information on directly to the church office.

Please note that the church office will ONLY accept the above emails from event organiser/leaders.

Failure to do so would result in a parking fine being issued to them by the third-party company. This company is not controlled in any way by the church nor does the church benefit financially from parking fines issued.

If the Church requires the car park for any reason, we will endeavour to give prior notice that admission to the car park may be withheld, but this may not always be possible.
